"Of course I haven't time to examine all the different kinds of dentifrice that are offered to the public—or to verify the wonderful claims made for them.

"My advice is to use a dentifrice that is safely antiseptic, not over-medicated, delicately flavored and made by a responsible house that thoroughly understands dentistry.

White
WHITE ENCLOSED CARS
CUSTOM DESIGNED
The lines are modeled with the graceful sweep of parapet, radiator and fenders which characterizes the made-to-order product. Interior appointments and workmanship are similarly indicative of a highly refined individual treatment.
Making these bodies in the White workshops has a distinct advantage. Chassis and body are designed as a unit. They fit each other in line, weight and proportion. The body designer is never constrained by the arbitrary requirements of a given chassis to distort, however slightly, the beautiful lines of his product. He works in perfect harmony with the structural refinements of the chassis.
The difference between a made-to-order body imposed upon any make of chassis and a White body designed upon a White chassis is in the perfect balance which results from building each with the other in mind.
